

NANDROLONE PHENYLPROPIONATE

Active Ingredients: Nandrolone Phenylpropionate 100 Mg

DISCRIPTION

Nandrolone Phenylpropionate, the main component of Androfinil, is a high quality anabolic and androgenic steroid. It acts on cellular receptors and stimulates energy and metabolic processes. Nandrolone phenylpropionate is more compatible with androgens because it reduces the ability to accumulate fluid. It is used primarily in the treatment of breast cancer and osteoporosis in women and as an adjunct therapy for the treatment of senile or postmenopausal osteoporosis in women. It also is used to treat serious injuries, surgery, and burns. And of course, it is successfully used in sports. Androfinil is one of the best choices for bodybuilders and athletes to increase muscle mass and size. It carries with it numerous therapeutic and performance benefits.

Storage: Store in a dark, dry place, at room temperature. Do not refrigerate. Keep out of reach of children.

Product Content: 10 Ampoules of 1 ml - 100 mg / ml
