## STANOZOL

**Active Ingredients:** Stanozol 10 mg

### DISCRIPTION

Stanozol tablets have active substance winstrol. It stimulates anabolic processes and suppresses catabolic effects caused by glucocorticoids. This leads to an increase in muscle mass, an improvement in blood production and connective tissue, a decrease in body fat levels. The androgenic effect is moderate and may contribute to the development of male secondary sexual signs. Winstrol can be used during therapy in pathologies accompanied by protein synthesis disorders, injuries, burns, pre- and postoperative infections, muscular dystrophy, osteoporosis, renal failure, negative nitrogen balance in corticosteroid therapy, hypo- and aplastic anemia, as an auxiliary substance in the treatment of tuberculosis, hepatitis, and asthma.

**Storage:** Store in a dark, dry place, at room temperature. Do not refrigerate. Keep out of reach of children.

**Product Content:** Each Tablet Contains 100
