

TESTOSTERONE SUSTANON MIX

Active Ingredients:	Testosterone Propionate	30 mg
	Testosterone Phenylpropionate	60 mg
	Testosterone Isocaproate	60 mg
	Testosterone Decanoate	100 mg

DISCRIPTION

We offer you effective injectable drug Sustanon, which is made by mixing 4 different testosterone esters: testosterone decanoate, testosterone propionate, testosterone phenylpropionate, and testosterone isocaproate. Testosterone is a natural male hormone that is part of the androgen hormones group. It is necessary for the normal growth, development and functioning of male genital organs, the development of secondary male characteristics. Sustanon is used in men to replace testosterone to treat various health problems caused by a lack of testosterone. It is also widely used in sport and bodybuilding because Sustanon is able to enhance the muscles due to its large amount of testosterone contained. Sustanon is one of the best available testosterone mixes and a very popular choice among bodybuilders and athletes for its great results. The drug is suitable for men only. For women, it is not recommended because of signs of virilization

Storage: Store in a dark, dry place, at room temperature. Do not refrigerate Keep out of reach of children.
